Waste Site Reclassification Form

Date Submitted: 3/30/2000	Operable Unit(s): 200-MW-1	Control Number: 2000-024
Originator: B. H. Ford	Waste Site ID: 200-E-34	
Phone: 372-9242	Type of Reclassification Action:	
	Rejected <input checked="" type="radio"/>	
	Closed-Out <input type="radio"/>	
	No Action <input type="radio"/>	

This form documents agreement among the parties listed below authorizing classification of the subject unit as rejected, closed-out, or no action and authorizing backfill of the site, if appropriate. Final removal from the NPL of no action or closed-out sites will occur at a future date.

Description of current waste site condition:

This site was in the PUREX facility High Level Waste Room. All 90 day storage pads and any waste residues were removed when PUREX was closed down and cleaned to meet the deactivation end point criteria prior to transition from Westinghouse Hanford Co. to Bechtel Hanford Inc. (BHI).

RECEIVED
OCT 03 2000

EDMC

Basis for reclassification:

Removal of all dangerous wastes and waste residues associated with 90 day pads at PUREX was required to satisfy requirements to transition the facility to BHI. All dangerous wastes and waste residues associated with 90 Day Pads at PUREX have been removed to meet the PUREX end point criteria and verified during transition walkdowns. Thus, WAC 173-303-630 (10) has been met for this 90 day pad.
